

NECHAKO FISHERIES CONSERVATION PROGRAM

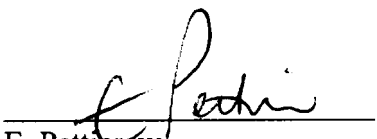

NECHAKO FISHERIES CONSERVATION PROGRAM TECHNICAL COMMITTEE

DATE: April 23, 2003

Decision Record (2003/2004-1)

1. The Technical Committee has information indicating that there is an open lead in the ice around Murray and Cheslatta Lakes. Therefore, Alcan will be instructed to increase Skin Lake Spillway release flows starting on April 24, 2001 to the desired spring release of an average release of 49 m³/sec.
